Dear Mr. Adams:

As we discussed in our meeting on Friday, February 2, 1979, there are several items yet required by the Division in order to bring your operations at the above mentioned mines into compliance with the Utah Mined Land Reclamation Act of 1975. Attached is a list of the items required for each mine.

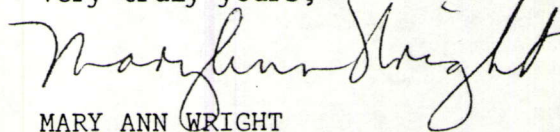

For your convenience, the mining and reclamation plans, submitted by Mr. Skopos and Mr. Halamandaris, are included with this letter. It is quite important that you carefully review these plans and submit any needed amendments to the Division immediately.

As it was further pointed out to you during our meeting, the single most important action needed is the posting of bonds for both the Brown Mountain Mine and the Eagle Mine. If the Division does not receive these bonds within 21 days of the receipt of this letter, then tentative approval will be withdrawn for these mines. Copies of the bond estimates are enclosed.

The Division appreciates the good faith shown on your part by coming into our office to bring your mines into compliance. We look forward to your continued cooperation.

Very truly yours,

MARY ANN WRIGHT
